Southwest Regional Gap Analysis
Wildlife Habitat Relationship

ID 1884  Model Name  SWReGAP 178041
Taxa code (ITIS)  178041
Scientific Name  Selasphorus sasin
Common Name  allen's hummingbird
Created By  mluna  Last Modified By  ccross
Date  1/1/2004  Date  7/29/2005 11:11:50 AM
Sensitive Data
Model Description  ALLEN'S HUMMINGBIRD
                   Selasphorus sasin
                   FINAL SWReGAP
Background  General Comment: This species is generally not found in the state of Nevada, nor in much of the five-state SWReGAP region (National Geographic, 1999; NatureServe 2004). However, there are occurrences of this species in some of the watersheds that are shared with California during the breeding season.

Land Cover: NatureServe (2004) lists shrubland/Chaparral, Suburban/orchard, and Woodland-Conifer habitats are suitable for this species; a variety of woodland and scrub habitats are used during migration (CA WHR, downloaded 07/10/2003).

Description Changes  Import of Nevada data; internal review update 03/07/05; external review update 07/19/05; external review update 07/29/05
